PRIVATE UTILITIES

CenterPoint Energy has notified the City that they will begin replacing gas lines along 3rd Street starting on June 3, 2010. This work is not under the direction or supervision of the City but is necessary to prepare for the proposed sewer and water installations. We understand that this work will result in some rather disruptive and messy conditions, and ask that you please be patient as the various contractors work to complete their individual portion of the improvements.

PROJECT TIMELINE

GM Contracting is planning to begin construction on June 21, 2010. Work will include surface removals along 2nd Street and boring the water main under the railroad tracks on 2nd and 3rd Street and along Parkway Avenue.
