

### **BITTNER NAMED FAIRMONT OFFICE MANAGER**

Bolton & Menk, Inc., Consulting Engineers and Surveyors, continues to experience growth and success throughout Minnesota and Iowa. Bruce Firkins, P.E., Vice President and manager of the firm's Civil Division and its Fairmont Office, is engaged in more division-wide responsibilities because of this growth. To support Bruce in his expanding managerial and leadership roles, Bolton & Menk is proud to announce it has named Kevin Bittner, P.E., to manage the firm's Fairmont Office.

Mr. Bittner has been with the firm since 1998 and has been serving as a senior project engineer and project manager in the Mankato office. Kevin has more than 18 years of engineering experience, with 12 years in the area of Municipal Engineering.

Mr. Firkins has managed the Fairmont office since 1986. He has also served as manager of the firm's Civil Division since 1995, providing oversight of civil engineering and surveying operations in five of the firm's other offices. With the change, Mr. Firkins will be increasing his involvement in Civil Division operations. He will continue to serve selected engineering and survey clients for the Fairmont office. He and his wife, Debra, will continue to reside in Fairmont.
