

# COMMUNITY EDUCATION & OUTREACH

## Water Benefits

Bolton & Menk's water resources team provides services that educate and inform on stormwater pollution and best management practices for water protection. We make learning fun and informative.

### WHY BOLTON & MENK

Our water resources team excels at delivering technical information in an easy-to-understand format. We have spent decades educating in schools, working with residents, and collaborating with leadership, public works and permitting staff, and environmental experts. We create engaging presentations and materials for all age groups, including chloride reduction education, stormwater education, and many more topics.

### THE BENEFITS

- Create an informed and engaged community
- Reduce stormwater pollution
- Provide educational materials for community members to meet MS4 permit requirements
- Train city staff in winter maintenance to meet annual MS4 training requirements
- Promote volunteerism in communities to prevent stormwater pollution

### AUDIENCE

- K-12 Classrooms, Youth Groups
- College, Community College, Trade School
- Lake Associations
- Environmental Groups
- Community Members
- Maintenance Staff

### EDUCATIONAL MATERIALS & OUTREACH
