

COMPREHENSIVE PLAN SERVICES

A comprehensive plan defines the vision, goals, and aspirations of a community's long-term development. A strong plan shapes land use and transportation patterns, develops ways to conserve natural resources, and identifies needs for housing, utilities, parks, and other community facilities. These assessments help the community make well-informed decisions on both public and private infrastructure/facility investments for years to come.

Why Bolton & Menk

We develop plans that help communities thrive both environmentally and economically. Our team develops unique plans for urban, suburban, and rural communities. We've created a toolbox filled with engaging strategies:

- Visioning workshops
- Pop-up meetings
- Project websites
- Social media campaigns
- Interactive maps
- Face-to-face outreach

Other Planning & Urban Design Services

- Future Land Use & Growth Assignments
- Neighborhood & Small Area Plans
- Development Scenario Planning
- Site Plan Review
- Market Research & Analysis
- Zoning & Subdivision Ordinance Review
- Park & Trail Planning
- Grant Applications
- Community Engagement
- Master Planning
- Landscape Architecture
- Transportation Planning
