A-1 Excavating, Inc.  
Bloomer, WI

## Overview

The City of Lewiston is undertaking a construction project to improve the city streets and utilities along Rice Street, Benike Street, First Street, Second Street and Country Club Drive. The project includes the replacement of the existing sanitary sewer and watermain systems, bituminous surface, curb and gutter and storm sewer.

## Project Timeline

The previous newsletter stated that A-1 Excavating was going to start work on July 16<sup>th</sup>, however due to some scheduling issues they started work on July 12<sup>th</sup> as I am sure you are aware. Also, A-1 Excavating had indicated to us that they were going to start on Rice Street first and move to First and Second Streets later this summer. That plan has now changed as well. A-1 Excavating plans to start work on First Street from Freemont Street to Benike Street, then move to Benike Street and then to Second Street from Freemont Street to Benike Street. This work will start on July 16<sup>th</sup>. The remaining work will occur later in the summer and you will receive updated newsletters when more information is known.

Please be aware of the construction occurring in front of or near your property. It may be necessary at times to move vehicles out of your driveway and park down the block.

## Questions

### Private Utilities

The gas, electrical, and communication companies are nearing completion of their work and that should wrap up by the end of July. This may cause intermittent disruptions in these services. Those utility companies will be in contact with you.

## Contacts

Informational newsletters, such as this one, will be mailed to you periodically throughout the project. If you have questions or concerns at any time, please contact Bryan Holtz or Adam Nix at the phone numbers or email addresses listed.

**Weekly construction meetings take place every Tuesday at 9:00 am. The meetings take place on site near where the work is taking place. You are welcome to attend.**
