

CONSTRUCTION UPDATE

June 24, 2016

17th Ave & 2nd St will be closed starting on Thursday, July 7 for water main work. The closure will extend over the weekend to allow for restoration of the concrete roadway, as it takes approximately 4 days for the concrete to harden enough to withstand traffic.

Advance notice of the closure has been posted. A detour directing drivers around the closure via 4th St, 12th Ave and Mainstreet will be posted, see the attached map. We realize that despite the detour, residents in this area are likely to see an increase in traffic because of the intersection closure.

Residents fronting 17th Ave N between 1st St and 3rd St will be able to access their driveways during this closure. There will be road closed signs across 17th Ave at 1st St and 3rd St, but there will be an opening at each end to let residents on these blocks through. Cars will not be able to drive through 2nd St on 17th Ave so plan accordingly if you need to enter from the north or south on 17th Ave.

The intersection is scheduled to reopen Monday, July 11.

If you have any questions please contact Nick Amatuccio, the project construction representative, at 612-965-3926.
