Overview

The City of Rushford is planning for the 2019 Street and Utility Reconstruction Project within the areas highlighted in the map below.

Construction for this project is expected to begin during early May.

The City will be hosting a **Neighborhood Informational Meeting** for residents within the proposed project area on **Wednesday, April 17th, 2019** from **5:00pm to 7:00pm** at the **Rushford City Hall**. A short presentation is planned for 5:15pm.

During this meeting, we plan to discuss the various stages of work required, access to streets and driveways, anticipated completion dates, reestablishment of turf, and many other topics.

These meetings are intended to provide residents affected by the project an opportunity to learn about the project and ask questions in an informal setting.

Contacts

If you are unable to attend the meeting and have questions about the proposed project, please contact the City Engineer, Derek Olinger.

Drew Weber will be on site throughout the summer and will serve as the primary contact during construction. Drew will be at the meeting and can be reached using the contact information in the left margin.

Additional information about the project can be found on the project website: <https://www.bolton-menk.com/rushford2019>
