CONSTRUCTION UPDATE

Hillcrest Drive

Generation X is currently installing sanitary sewer along Hillcrest Drive. They expect to complete the sanitary sewer early the week of 8/22/16 and then move on to installing watermain along Hillcrest Drive.

Temporary water service lines have been installed and connected to homes along Hillcrest Drive. Gas main replacement by Minnesota Energy Resources has been largely completed.

South Burr Oak Street

Minnesota Energy Resources, AcenTek, and Mediacom have begun gas and communication utility replacements or relocations. In addition, Generation X has laid out the temporary water service piping, installed erosion control silt fence, and delivered storm sewer pipes to the project.

Generation X may begin excavation on the ponding area in the open grass area west of South Burr Oak Street the week of 8/22/16, depending on weather and crew availability, then begin installation of the storm sewer outlet piping and lift station at the south end of South Burr Oak Street.

Installation of sanitary sewer and watermain piping is currently not planned until those utilities are completed along Hillcrest Drive.

CONTACTS

Informational newsletters, such as this one, will be mailed to you periodically throughout the project. A project website has also been set up and can be accessed here: www.bolton-menk.com, click on "Client Zone", then on "City of Rushford 2016 Street & Utility Improvement Project." You can sign up for e-mail updates on the website as well.

If you have questions or concerns at any time, please contact Brian Malm or Russ Morsching at the phone numbers or e-mail to the left.
