## **CONSTRUCTION UPDATE**

### **Hillcrest Drive**

Generation X has completed the city utility installation. Street excavation is the next step, however this work has been slowed by the wet weather. Once the street excavation is completed, they will move on to installing the drain tile and then work on putting down the aggregate base.

### **South Burr Oak Street**

Mediacom has some utility relocation to complete yet. Generation X has completed installing the lift station. Storm sewer from the pond has been partially installed, and sanitary sewer and forcemain work has been started to the north of the lift station. Generation X will continue to install storm sewer, as well as sanitary sewer up to Jesse Street and then will move to installing the watermain pipe.

### **Access**

Unfortunately the wet weather has complicated access. We are working with the contractor to minimize the periods where access is not possible. If you have any special access needs or simply have questions or concerns about access, please feel free to contact Russ Morsching at the phone number to the left.

### **Weekend Work**

Due to the wet weather, it is possible that Generation X may begin working on Saturdays if weather conditions permit.

## **CONTACTS**

Informational newsletters, such as this one, will be mailed to you periodically throughout the project. A project website has also been set up and can be accessed here: [www.bolton-menk.com](http://www.bolton-menk.com), click on "Client Zone", then on "City of Rushford 2016 Street & Utility Improvement Project." You can sign up for e-mail updates on the website as well.

If you have questions or concerns at any time, please contact Brian Malm or Russ Morsching at the phone numbers or e-mail to the left.
