Bloomer, WI

## Overview

The City of Lewiston is undertaking a construction project to improve the city streets and utilities along Rice Street, Benike Street, First Street, Second Street and Country Club Drive. The project includes the replacement of the existing sanitary sewer and watermain systems, bituminous surface, curb and gutter and storm sewer.

## Assessments

The Lewiston City Council voted to postpone the certification of the assessments until October 2019. No assessment payments will be due with the 2019 property tax statements.

## Construction

Underground utility construction will continue on Second Street. Access in this area will be difficult to impossible.

The remaining project area has been restored to aggregate base. The entire project will remain aggregate base (gravel) throughout the winter due to the wet soil conditions. Paving will occur in the spring of 2019; with the entire project to be completed by the end of June 2019. Temporary seeding will be completed prior to winter with the final sodding being completed in the spring of 2019.

## Contacts

If you have questions or concerns at any time, please contact Bryan Holtz or Adam Nix at the phone numbers or email addresses listed.
