Project Update

Please refer to the staging map on the reverse for a map of the work area.

Concrete Work

Concrete work has begun and will last approximately 1-2 more weeks, depending on weather & scheduling. During this time, access to your driveway will be restricted. Please avoid walking on new concrete for 24 hours after placement. Avoid driving on concrete for 7 days. Paving of the new street is tentatively scheduled for the week of October 26.

Seeding/Grass

Any residents whose lawns were seeded (north end of the project) may begin mowing new grass, if you have not done so already. Please set your mower deck to its highest setting for the next year. Please note that the City has not formally accepted all seeding and we are aware of multiple bare spots and weed issues in lawns. These areas will be repaired prior to finalizing the project next spring. Please remove leaves from the new grass as you would with your existing lawn, to help promote growth in the thinner areas.

Sign up for email or text updates!

The project team will be sending out regular updates via email/text blast. To sign up to receive weekly email or text message notifications, please visit the project website and enter in your preferred contact information.
