## Project Update

### Schedule impacts due to weather

The untimely cold and wet weather conditions over this past week is creating some scheduling issues for the concrete and asphalt paving crews. We need dry weather and temperatures above freezing to complete the surface work.

For this reason, the remainder of concrete and paving of the new road will be delayed until early November. The forecast for this time looks more favorable for completing work.

We will provide you with additional updates as we move forward. Please contact Jordan with any questions.

## Sign up for email or text updates!

The project team will be sending out regular updates via email/text blast. To sign up to receive weekly email or text message notifications, please visit the project website and enter in your preferred contact information.
