Project Update

Please refer to the staging map on the reverse for a map of the work area.

Highway 60 to Home Street

Crews finished watermain and sewer main installation. Individual water and sewer pipe connections will be installed early next week.

Home Street to 5th Street

Watermain and sanitary sewer installation will be installed beginning next week, followed by individual services to homes. A planned temporary watermain shutdown is scheduled for Saturday, May 16. Individual notices have been handed out to properties impacted by this work.

Highway 60 to 5th Street

After service installation is complete, storm sewer will be installed from Highway 60 to 5th Street. This will take place over the coming weeks.

Reminder: Once watermain and sanitary sewer installation starts, there may be intermittent short-term water service interruptions. You will be contracted prior to any planned shut-downs. While crews are working in front of your home, access to driveways will be restricted. Please park on nearby side streets if you do not have access.

Sign up for email or text updates!

The project team will be sending out weekly project updates via email/text blast. In addition to the website, **this will be the primary method of sharing project information moving forward.** To sign up to receive weekly email or text message notifications, please visit the project website and enter in your preferred contact information.
