Project Update

Please refer to the staging map on the reverse for a map of the work area.

The contractor finished installing water and sewer main from Highway 60 to 5th Street. Service installation has begun in the alley near the VFW. Service installation to homes will continue on Red Wing Avenue over the next week.

Following the completion of sewer and water services Wencl will begin installing storm sewer and preparing for road construction in the active work area.

With the recent rain, access has become more difficult. Efforts to maintain access to the extent possible are being made, but please use good judgement when traversing the project area. As always, if there are any difficulties or inconveniences due to construction please call Adam and an effort will be made to accommodate the situation.

Sign up for email or text updates!

The project team will be sending out weekly project updates via email/text blast. In addition to the website, **this will be the primary method of sharing project information moving forward.** To sign up to receive weekly email or text message notifications, please visit the project website and enter in your preferred contact information.
