## Project Update

*Please refer to the staging map on the reverse for a map of the work area.*

### Project Summary

As we head into this last month of construction, **we would like to thank everyone for their patience over this past summer.** Within the next week, the contractor will complete all underground pipe work and placing the remainder of roadway base gravel in preparation for concrete and asphalt surfacing.

### Concrete Work

**Concrete crews are scheduled to be on site on Thursday, October 8<sup>th</sup>.** These crews will first install curb and gutter, followed by sidewalks and driveways. Concrete work will last approximately 2 weeks. During this time, **access to your driveway will be restricted. Prior to October 8<sup>th</sup>, please move any vehicles you may need out of garages/driveways and use nearby streets for parking.** Please avoid walking on new concrete for 24 hours after placement. Avoid driving on concrete for 7 days. Paving of the new street is tentatively scheduled for the week of October 20<sup>th</sup>.

### Tentative Schedules

As with any construction project, schedules can and will change due to weather or other unforeseen circumstances. As a result, the dates presented above are subject to change.

### Seeding/Grass

**Any residents whose lawns were seeded (north end of the project) may begin mowing new grass, if you have not done so already.** Please set your mower deck to its highest setting for the next year. Please note that the City has not formally accepted all seeding and we are aware of multiple bare spots and weed issues in lawns. These areas will be repaired prior to finalizing the project next spring.

## Sign up for email or text updates!

The project team will be sending out regular updates via email/text blast. To sign up to receive weekly email or text message notifications, please visit the project website and enter in your preferred contact information.
