Hwy 30 Construction Update

The highway 30 reconstruction will be moving on to Phase 2 (West End Construction) on July 11th. This letter is intended to provide you with pertinent details regarding access to your property.

Initially, the contractor will be removing pavement from the road and the street will be a gravel surface. The contractor will begin underground utility work near Stevens Ave, working west.

Vehicle Access (East end Phase 2 - Near Stevens Ave)

Properties on the east end of Phase 2 (near Stevens Ave) will lose access as the contractor completes underground pipe work through this area. Please plan to park on Stevens Ave temporarily, until this area is restored back to gravel.

Vehicle Access (West End Phase 2)

Properties on the west end should be able to access their property for a few weeks before underground work starts. During this time, you will be provided with a temporary gravel ramp to access your driveway from the street.

Mailboxes

During construction, your mailbox will be temporarily moved to another central location. You will receive a separate notice with this location in a few days.

Garbage

On your normal garbage day, please roll your bin to the normal location. The contractor will be collecting these on the morning of pickup day for collection at a central location. At the end of the day, bins will be returned to your property.

Contacts

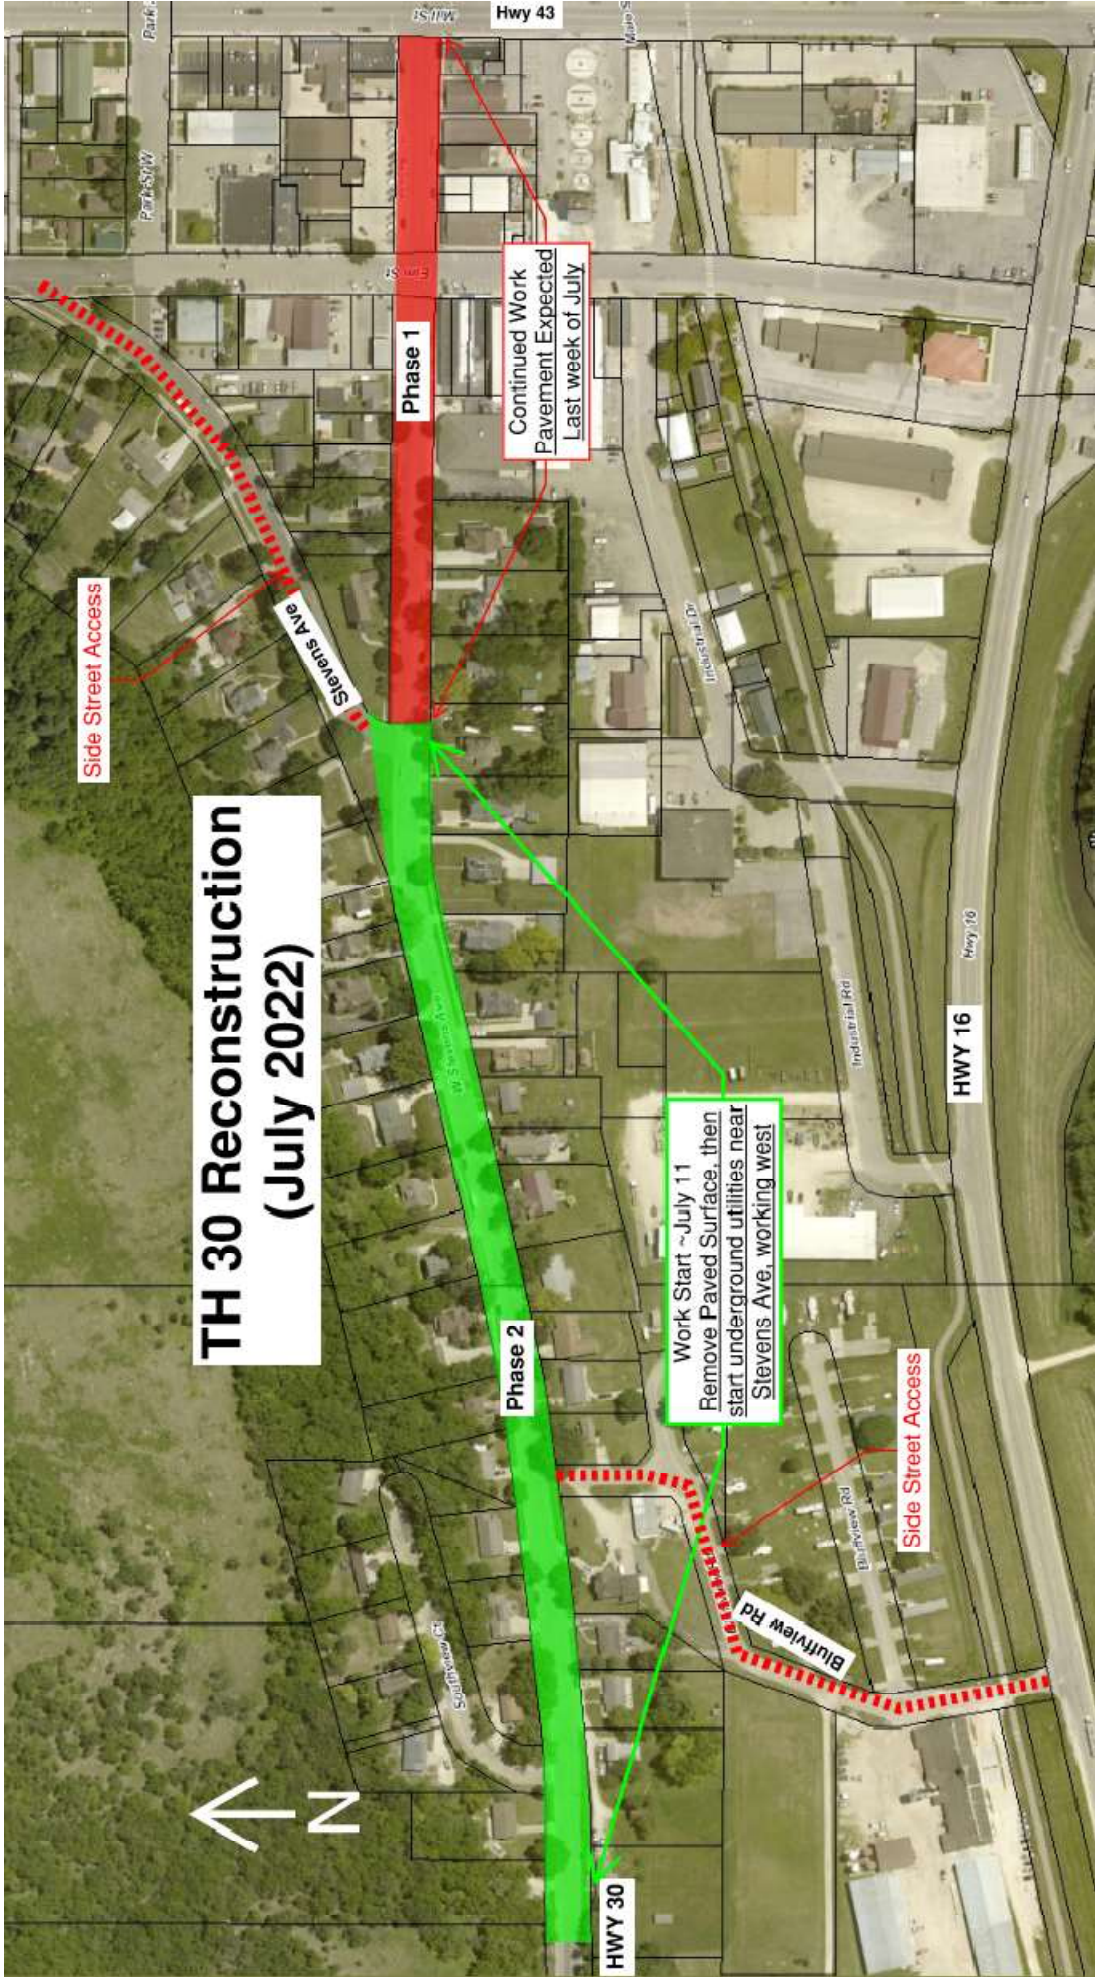

If there are any questions, please contact our on-site representative Grayson Gavin at 507-721-9087 or Grayson.gavin@bolton-menk.com. As questions arise during construction, he will be able to provide you with a timely response.
